

## Web Design

E-Telegence.com specialises in Web design for our clients, we provide a full service from concept to delivery. Our team of e-business consultants is available to assist in planning your &ldquo;E-business&rdquo;.

### Web Site Re-branding

Many companies already have a web site, at e-telegence.com we can take your current web site and make it better. Our web development team can provide a full review of your website and provide you with a report covering the strengths and weaknesses of your web site and how we could improve your e-business.

### More than just A Web Site

At E-Telegence.com we provide more than just web design &ndash; Often our clients require a web enabled database that integrates the front end of their business with the backend operations such as stock control and order fulfillment .
