

Real Estate Portals

E-telegence.com has created an easy to use portal to manage the marketing and selling of overseas properties. The system allows the site administrator to manage developments, special offers, images. In short everything you need to become an online property magnet

Calabay Homes

- Where would you go to purchase a holiday, investment or retirement home if you had no restrictions, except your own? Do you need sun, golf, a high standard of living, rental buoyancy throughout the year with organised structures for villa management, security, a clean environment that is alive, multicultural, with world class shopping, the best theme parks in the world, amazing dining venues, beautiful beaches and gorgeous unspoilt countryside? That's Florida summed up - and that is exactly what Calabay Homes offer.

- As homeowners ourselves, we can guide you through all the questions you may have about ownership in Florida. When you visit Florida on an inspection trip arranged by us, we arrange for you to be taken around all the best locations that may interest you and introduce you to many professionals who can advise you in their own specialist fields, whilst respecting your valuable free time to explore and discover the wonders of the central Florida area.

- With bases in the U.K. and Orlando, we are able to offer you a truly personal service from both sides of the pond, with staff who are both experienced and licenced by the applicable Florida governing bodies - even our U.K.-based staff are Florida licenced. We have our own licenced sales staff, our own licenced mortgage advisors and our own management company - we offer the complete house-purchase and ownership package "in-house".
